**h 13.00**

*Results evaluation*

Vanna Boffo, *University of Florence*

Francesca Torlone, *Melius srl*

**h 13.30**

*End of the working session*

## ***Presentation***

The Working Session is organised within the European project “*Social Inclusion: How Leonardo da Vinci projects contributed to make it effective*”, led by the University of Florence. It follows the International Conference and Exhibition taken in Florence on Friday the 18th January 2008.

The aim is to promote valorisation of products selected, exchange of experiences and information on transfer and adoption of innovative products that have been carried out in the following areas: language learning, inclusion into the labour market, migrants integration, mobility and handicap, safety at work.

The Working Session is then conceived as an opportunity for experts, practitioners, stakeholders, to interact and be confronted on key issues of common interest. Furthermore the Working Session wants to be the occasion where innovative ideas, perspectives, proposals related to social inclusion and intercultural dialogue are put together in the light of future further developments.

The group of participants will be confronted on the products exhibited during the International Conference that raised a high interest during the follow-up interviews conducted in Italy.

*This project has been funded with support from the European Commission. This communication reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.*

Special thanks to the following organisations supporting the valorisation of the products selected:

### ***Language learning for immigrants***

Cospe (Florence)  
CIES (Rome)  
Castaldi (Florence)
